

# СЦЕНАРИЙ К ПРОЕКТУ «ДОБРЫЕ СОСЕДИ».

2017-2018 год. «НАШ КРАЙ»

Выступление по этому сценарию состоялось в 2017 году в г. Пярну, Эстония на вечере встречи с учащимися школы «Таммсаарекооль». Сценарий может быть использован для рассказа о Санкт-Петербурге и Приморском районе.

**Host:** We are glad to welcome everybody at our event. We came from a wonderful and very beautiful city Saint Petersburg and we want to introduce our native city to you, to tell you about its sights, our favourite places.

**Student 1:** The heart of our city is formed by the Winter Palace and Palace Square. In the centre there is Alexander Column – the symbol of victory which is topped with the image of an angel. It is 40.5 m high.

The oldest park, Summer Garden, is within walking distance. It hosts 150 marble statues brought from Italy. If we take a short walk, we will come to Senate Square with the Bronze Horseman – the monument to Peter 1 in its centre.

**Student 2:** There are a lot of poems about Saint Petersburg. Now I would like to recite one. It was written by Nikolai Agnivitsev.

Санкт-Петербург - гранитный город,  
Внесенный Словом над Невой,  
Где небосвод давно распорот  
Адмиралтейскою иглой!

Как явь, вплелись в твои туманы  
Виденья двухсотлетних снов,  
О, самый призрачный и странный  
Из всех российских городов!

Недаром Пушкин и Растрелли,  
Сверкнувши молнией в веках,  
Так титанически воспели  
Тебя - в граните и в стихах!

И майской ночью в белом дыме,  
И в завываньи зимних пург  
Ты всех прекрасней - несравнимый  
Блистательный Санкт-Петербург!

**Host:** Saint Petersburg is brilliant with its sights. The token of our city is the Hermitage.

**Student 3:** The Hermitage is the largest and the richest museum in Russia which ranks with the biggest museums of the world such as the Louvre in Paris and the Prado in Madrid.

The year of the foundation of the museum is considered to be 1764 when Catherine the Great started her art collection by purchasing 225 paintings from a Berlin merchant. The masterpieces of that collection were 2 paintings by Rafael, 13 paintings by Rembrandt, 11 paintings by Rubens and many others.

Nowadays the collection occupies the complex of 5 buildings: the Winter Palace, the Small Hermitage, the Old Hermitage, the New Hermitage and the Hermitage Theatre. The first building which was put up especially as a museum was the Small Hermitage. It was established as a private art gallery of Catherine the Great, hence the name of the museum which means “retreat”, “shelter”.

Nowadays the collection of the museum numbers more than three million exhibits. If you spend at least one minute at each of them, you can see everything in 13 years.

**Host:** There is a connecting link between our two cities. This is Pushkin’s great-grandfather Abram Petrovich Hannibal who was the commandant of Pyarnu. Pushkin is the pride of Russia.

**Student 4:**

Однажды на балтийском берегу,  
Когда волна негромко набегала,  
Привиделся мне образ Ганнибала.  
Я от него забыться не могу.  
Все это правда и подобье сна,  
И мой возврат в иные времена.  
— Чего Россия нам не посылала —  
Живой арап! — так, встретив Ганнибала,  
Ему дивился городок Пернов.  
Для этих мест он был больших чинов.  
Сей африканец и поэта прадед  
Напрасно, говорили, слов не тратит,  
А чуть чего — пускает в дело трость.  
За это в нем предполагали злость.  
Портреты Ганнибала мало схожи  
С оригиналом — только смуглость кожи,  
Но живость черт, огонь, сокрытый в нем,  
И острый ум — не вышли ни в одном.  
Глаза как пара черных виноградин,  
Походкой мягок и фигурой ладен,  
Во цвете лет мужских, не слаб, не хвор.  
И по военной табели — майор.  
Заслугами, умом и сердцем храбрым  
Он сходен был с Венецианским мавром.  
Но не Венеция — увы! — Пернов,  
Для африканца климат здесь суров.  
И вообще арап в России редок,  
Особенно такого внука предок!

**Student 5:**

Люблю тебя, Петра творенье,  
Люблю твой строгий, стройный вид,  
Невы державное течение,  
Береговой ее гранит,  
Твоих оград узор чугунный,  
Твоих задумчивых ночей  
Прозрачный сумрак, блеск безлунный,  
Когда я в комнате моей  
Пишу, читаю без лампады,  
И ясны спящие громады  
Пустынных улиц, и светла

Адмиралтейская игла,  
И, не пуская тьму ночную  
На золотые небеса,  
Одна заря сменить другую  
Спешит, дав ночи полчаса.

**Student 6:** Saint Petersburg has got many things to see and to do for the whole family. My favourite place to visit is the Central Park of Culture and Leisure. It is famous for its attractions and is a great place to have fun. You can find a huge variety of entertainment for every taste and age.

You can visit the Elagin Palace – a museum of wax figures or go on exciting rides in the fun park. In summer you can hire boats and explore the park or take a ship ride along the river. In winter many people go ice skating or sleigh down the hill.

I visit this park on school holidays when I have enough free time. Beautiful nature and elegant buildings make the visits unforgettable.

**Student 7:** Saint Petersburg is situated on the islands. One of them is Krestovsky Island. It is a special place for tourists and locals alike.

Amusement park “Wonder Island” is the biggest in the city. There are also stages for concerts and shows as well as a dolphin park where you can swim, play and take photos with dolphins and the famous stadium. There you can go cart racing, roller-skating, walk. Krestovsky island is one of the sights which pleases the eye and gives a lot of positive emotions.

Host: Our city is famous not only for its architecture. Flora and fauna are also rich and diverse.

**Student 8:** Close to our school Juntolovo reserve is situated. The area of the reserve is 076 hectares. 380 species of large plants grow on the territory. Some of them are listed in the Red Book of Russia. You can meet some wild animals there for example a fox, a hare, a muskrat, over 100 species of birds. Some of these species hatch in the reserve.

**Student 9:** Unfortunately, we have some ecological problems. They are: pollution of forests, water bodies, waste produced by factories and deforestation but through common effort we are on the way to solving these problems.

**Host:** Our presentation has come to the end. We invite you to visit Saint Petersburg and see the sights with your own eyes.
